Arcus Infrastructure Partners publishes its inaugural Sustainability Report

LONDON, United Kingdom (22 May 2020) - Arcus Infrastructure Partners (“Arcus”) is pleased to announce the release of its inaugural Annual Sustainability Report for 2019, which presents the Arcus approach to managing Environmental, Social and Governance (“ESG”) matters and reports on the key 2019 ESG initiatives at Arcus and our investee companies.

Since its formation in 2009, Arcus has focused on responsible investment as a key component of its investment strategy, systematically integrating the evaluation of ESG risks and opportunities into origination, asset management and exit decisions. This public report builds upon many years of formal ESG reporting to Arcus’ investors, acknowledging that ESG management is increasingly important to all stakeholders.

“Arcus believes that the provision of high-quality sustainable infrastructure is critical to Europe’s future economic growth, environmental protection, societal development and to the reduction of inequality. Incorporating ESG factors into our policies and procedures stems from the belief that it helps us create responsible investee companies, which will generate long-term sustainable value for all stakeholders and deliver better long term returns for our investors.” said **Neil Krawitz, Partner and Head of Asset Management and ESG**. *“We hope that readers will find our Sustainability Report informative and transparent and that it provides an understanding of Arcus’ ESG approach and performance. Arcus is working extremely hard to deliver and continuously improve our, and our investee companies’, ESG performance.”*

About Arcus

Arcus Infrastructure Partners is an independent fund manager focused solely on long-term investments in European infrastructure. Arcus invests on behalf of institutional investors through discretionary funds and special co-investment vehicles and, through its subsidiaries, currently manages investments with an aggregate enterprise value in excess of EUR 15bn (as of 31 March 2020). The Arcus investment track record includes: Forth Ports, Horizon Energy Infrastructure, Alpha Trains, and several other leading European infrastructure businesses. Arcus targets mid-market, value-add infrastructure investments, with a particular focus on businesses in the transportation, energy and telecommunications sectors.
